THINGS I HAVE WORKED ON

I have been doing coding for many years in different companies and projects. I like solving computer problems and writing code for websites and systems.

MY PAST ROLES

Developer at Small Tech Firm (Few years ago)

- Worked on computer bugs and assisted senior teammates with code.
- Did some website modifications and made pages look better.
- Attended company meetings and discussed project goals.

WHAT I KNOW

Computers, internet, programming languages, databases, problem solving.

SCHOOLING

College degree in general technology studies.
